

NPTEL HCI Complete Preparation Notes

Important MCQs

1. HCI focuses on user interaction (Ans: B)
2. Goal of HCI is improving UX (Ans: B)
3. Low fidelity prototype = Sketch (Ans: B)
4. Heuristic evaluation done by experts (Ans: B)

Key Concepts

HCI = Human + Computer + Interaction

Good Design: Simple, Consistent, Feedback

Bad Design: Confusing UI, No feedback

Design Process

Identify → Design → Prototype → Evaluate → Repeat

Prototyping

Low fidelity: Sketch

High fidelity: Real UI

Evaluation

Usability Testing, Heuristic Evaluation

Previous Questions

Explain Norman Model

Define UCD

Explain Prototyping

Explain Evaluation Techniques
